Statement regarding REACH

We are well aware of the REACH legislation which is in accordance with EU regulation 1907/2006 and the responsibility it puts on all the actors in the supply chain with the regard of registration of chemical substances and articles.

In view of the above we are in this respect working to fulfil our responsibility by requesting declaration from our suppliers that they are in compliance with the regulations mentioned above.

As far as we know we do not supply our customers with any product having a concentration above 0.1% (w/w) of substances of Very High Concern listed in the Candidate List from European Chemicals Agency. We continuously work with our suppliers to confirm this.

1. **Contact details** for REACH issues:

Name: **Bruno Coppi**
Title: Chief Operating Officer
Phone: +39-02-48954230
Fax: +39-02-471106
